

We've been apart for it seems to be a lifetime
Niki, you know, I'm loosing my mind
Trying to live my life here without you
What happened to us living a lie?

We should be together
You and me forever

Niki, Niki, are you lonely tonight?
I want you back, I want you back in my life
Are you missing me too, like I'm missing you? (2x)

We made a choice, we thought it was the right one
What kind of game are we trying to play?
Both of us know we were better off together
Niki, this past should never remain

We belong together
You and me forever

Niki, Niki, are you lonely tonight?
I want you back, I want you back in my life
Are you missing me too, like I'm missing you? (2x)

Niki, since you've been out of my life
Nothing's working, nothing's turning out right
Are you missing me too, like I'm missing you
Oh, like I'm missing you

With every day that passes me by
I can't remember why
Why we ever said goodbye
I just need you in my life!

We belong together
You and me forever

Niki, Niki, are you lonely tonight?
I want you back, I want you back in my life
Are you missing me too, like I'm missing you? (2x)

Niki, since you've been out of my life
Nothing's working, nothing's turning out right
Are you missing me too, like I'm missing you
Oh, like I'm missing you
