

# Left For Death

Glenn Tipton

You can live your life of ease  
If you obey the hierarchy  
I never could see, I never knew why  
I shouldn't stand and speak my mind  
You keep your mouth shut and your ok  
You get to live through one more day  
But I had to say this  
And I had to say that  
And they stuck a knife right in my back  
Closed the lid to bury me  
But while there's still  
A breath of life in me  
Left me for dead  
But there's no way that I  
Will ever give in  
I will survive  
Traitors prosper, rebels die  
And then they say  
He was no friend of mine  
Oh I never say no when I want to say yes  
I never go along and vote for the obvious  
Just because of my  
Point of view  
My expiry date's long overdue  
Oh you never can tell  
What's going on in their minds  
They write your death warrant  
But return your smile  
While there's still a breath in me  
I will not lie down  
They won't get me  
Left me for dead  
There's no way that I  
Will ever give in  
I will survive  
I will survive  
While there's still a breath in me  
I won't lie down  
They won't get me  
Left me for dead  
There's no way that I  
Will ever give in  
I will survive  
While there's still a breath in me  
I won't lie down  
They won't get me
