

Christmas Through Your Eyes

Gloria Estefan

Till I had you I didn't know
That I was missing out
Had to grow up and see the world
Through different shades of doubt
Give me one more chance to dream again
One more chance to feel again
Through your young heart
If only for one day help me try

I wanna see Christmas through your eyes
I want everything to be
The way it used to be
Back to being a child again
Thinking the world was mine
I wanna see Christmas
Christmas through your eyes

I see the rain, you see the rainbow
Hiding in the clouds
Never afraid to let your love show
Won't you show me how
Wanna learn how to believe again
Find the innocence in me again
Through your young heart
Help me find a way, help me try

I wanna see Christmas;
I wanna see Christmas
I wanna see Christmas through your eyes
