

Say Goodbye

Gloria Estefan

We've seen and done it all, it seems
I've cried for all it's worth a few times
I've lived and loved in search of truth
I've seen a lot of pain, oh, oh
To finally realise the reason for this life

Is to say goodbye to sorrow
Don't hang on to the tears we borrowed
Say goodbye to sorrow and fear
We are so free, you're free

We've seen the bottom once or twice
We've soared about the earth and suddenly
We've made a few mistakes, it's true
We've seen enough of hate, oh, oh
To finally realise there's not much more to life

We say goodbye to sorrow
Don't hold on to the fears we borrowed
Say goodbye to sorrow and fear
We are so free, you're free

We may long for happiness
Pray to god that we be blessed
Save us from this loneliness
After all that I've been through
I believe the thing to do
Is to look inside of you

And just say goodbye to sorrow
Don't give up all the years we borrowed
Say goodbye to sorrow and fear
We are so free, you're free
