

The Day You Say You Love Me

Gloria Estefan

Tender sighs like a whisper
Caressing my day dreams
You're here by my side
I feel life smile upon me
Whenever your sweet eyes
Can look into mine

And it's my consolation
The sound of your laughter
Like music sublime
There's no way of concealing
Every thought, every feeling

The day you say you love me
The most beautiful of roses
Will bloom in every garden
Of a color never seen

And from the highest steeple
The bells will sing our love song
And make the eager fountain
Spill over with our love

The night you say you love me
The skies above will listen
The jealous stars will longing
Will see us passing by

A playful ray of moonlight
Will dance along of pleasure
While witnessing this moment of our lives
We will always treasure

A playful ray of moonlight
Will dance along of pleasure
While witnessing this moment of our lives
We will always treasure
