

## Time Waits

Gloria Estefan

Time gave me a window to be here  
Time made me some space  
Allowed me  
Entry

Blink, children have grown  
They're on their own  
Years, swift as a day  
Before you know go blazing away

I'll live like forever is now  
Because time waits for no one  
And tomorrow just may not come 'round  
Because time waits for no one  
When we're gone  
Only love goes on

Time, it's seamless illusion seduced me  
Time, to show me the ropes  
Enticed me  
To waste it

But truth is much better seen  
Within our dreams  
Life's infinite thread  
Unraveling then starting again

I'll live like forever is now  
Because time waits for no one  
And tomorrow just may not come 'round  
Because time waits for no one  
When we're gone  
Only love goes on

Time waits for no one, it all seems to happen so fast  
(Time won't wait, oh no)  
No end, no beginning  
I'll live like each moment's the last  
(Time won't wait, oh no)

Just when it's over, the journey has merely begun  
(Time won't wait, oh no)  
No you, no me, in the end there is only the one  
(Time won't wait, oh no)
