

No One Can Love You More

Gloria Gaynor

Give you love, give you love
I'm gonna give you all my love, all my love
Give you love, give you love
I'm gonna give you all my love, all my love

I used to be on my own
Every night, every day by myself
Feeling so far from home
How could I know I would go
Down the road that would lead me right into your arms?
Destiny told me that you were the one
Stars fill the sky now I've finally found you

No one can love you more
No one can give it all
I'm gonna give you all my loving
No one can love you more
I'll give you my heart and soul
Feel it deep, deep down inside

Give you love, give you love
I'm gonna give you all my love, all my love
Give you love, give you love
I'm gonna give you all my love, all my love, ooo yeah

I thought I was wasting time
Living in hope that I'd find a new love
Life can be so unkind
How could it be you and me took so long
To discover that dreams do come true?
Everything's changed since the day I met you
The sun's gonna shine every time we're together

No one can love you more
No one can give it all
I'm gonna give you all my loving
No one can love you more
I'll give you my heart and soul
I'll take you all the way to heaven

No one can love you more
No one can give it all
I'm gonna give you all my loving
No one can love you more
I'll give you my heart and soul
Feel it deep, deep down inside

Yesterday has gone
And from this moment on you will see
This will be a forever lasting love

Give you love, give you love
I'm gonna give you all my love, all my love
Give you love, give you love
I'm gonna give you all my love, all my love

No one can love you more

No one can give it all
I'm gonna give you all my loving
No one can love you more
I'll give you my heart and soul
I'll take you all the way to heaven

No one can love you more
No one can give it all
I'm gonna give you all my loving
No one can love you more
I'll give you my heart and soul
Feel it deep, deep down inside

Give you love, give you love
I'm gonna give you all my love, all my love
Give you love, give you love
I'm gonna give you all my love, all my love

No one can love you more
No one can love you more
No one can love you more
