

## This Love Affair

Gloria Gaynor

(Check it out, check it out, this love affair)  
(Check it out, check it out, this love affair)  
One - it's on the money, two - it's in full stride  
Three - we've got each other, so there's no need to hide  
Honey, this love affair has gotten to where I want it  
This love affair, I'm so proud to own it  
Oh this love affair is in the right direction  
This love affair is under love's protection  
Four - we're getting over, five - we've got it made  
Six, let's pray forever, this love will never fade  
'Cause it's a miracle there ain't no doubt about it  
This love affair, I've got to talk about it  
Oh this love affair is in the right direction  
This love affair is under love's protection  
For the first time in my life I can see clear the skies  
So let's soar them like two eagles and fly so high  
Seven - bound for heaven, eight - we're at the gate  
Nine - we've got their blessings, ten - we're perfect mates  
Honey, this love affair has gotten me where I want it  
This love affair, I'm so proud to own it  
Yeah yeah  
Yeah yeah.....  
This love affair, Oh oh  
Seven - bound for heaven, oh well eight - we're at the gate  
Nine - we've got their blessings, ten - we're perfect mates  
Honey this love affair is in the right direction  
This love affair is under love's protection  
Woah this love affair > fade is in the right direction  
This love affair.....
