

# Lead Me On

Gloriana

There you go in all your beautiful glory  
Messing with my head like you always did

I'm thinking things I don't want to say  
And I can't breathe  
What do I have to tell you girl  
So you won't leave

Tell me what I want to hear  
I don't care if you're lying baby  
I just want to feel you touch me right now  
Go ahead and call it love  
Tomorrow you can deny it baby  
Kiss me again, let me pretend  
That it's not wrong  
Baby, lead me on

I wanna touch your skin, I wanna taste it  
I wanna feel that love like we used to make it

I don't care if we go nowhere  
You're all I see  
One more night with you  
Is all I need

Tell me what I want to hear  
I don't care if you're lying baby  
I just want to feel you touch me right now  
Go ahead and call it love  
Tomorrow you can deny it baby  
Kiss me again, let me pretend  
That it's not wrong  
Baby, lead me on

I know what you want  
I know what you need  
I know when I'm gone  
You'll still think of me  
You know what I want  
You know what I need  
I know when you're gone  
You won't even think about me

Tell me what I want to hear  
I don't care if you're lying baby  
I just want to feel you touch me right now  
So go ahead and call it love  
Tomorrow you can deny it baby  
Whisper my name, baby no shame  
Is it so wrong?  
Baby, lead me on

I know what you want  
I know what you need  
I know when I'm gone  
You won't even think about me

Baby, lead me on
