

# Soldier Song

Gloriana

Here's a song for the ones  
Who sacrifice so much  
So that we can be free  
In this country that we love

If you're proud of all you're given  
Sing along, sing along  
If you love the life we're livin',  
Sing along, sing along

No, we haven't forgot  
How we get what we got  
All because of the proud and the few  
So to every soldier standin',  
Remember that we're singin' for you

For the choice that they made  
For the million lives they saved  
Lift your voice, loud and brave  
Give thanks for the price they've paid

If you're proud of all you're given  
Sing along, sing along  
If you love the life we're livin',  
Sing along, sing along

No, we haven't forgot  
How we get what we got  
All because of the proud and the few  
So to every soldier standin',  
Remember that we're singin' for you

Sing along, sing along  
For the fightin' strong  
Sing along, sing along  
For the fightin' strong  
Sing along

For the fightin' strong  
For the fightin' strong

For the lost 'long the way  
Though you did not fall in vain  
Purple mountains, amber grain  
Where you always will remain

If you're proud of all you're given  
Sing along, sing along  
If you love the life we're livin',  
Sing along, sing along

If you're proud of all you're given  
Sing along, sing along  
If you love the life we're livin',  
Sing along, sing along

No, we haven't forgot

How we get what we got  
All because of the proud and the few  
So to every soldier standin',  
Remember that we're singin' for you

(Sing along, sing along)  
Yeah, to every soldier standin',  
Remember that we're singin' for you
