

Black Legacy

Gloryful

The stars in the sky
Are guiding us all the way
And silence threatens the night
A dark menace, a fiend
A shadow that darkens the sun
And brings us through the sea
Encourage our believes

Fly away on your wings
Through the dark of the night
Thy gem, our precious will guide us the light
All bale and all pain this is our misery
Take this burden from me
Black legacy

A new dawn will rise
Even if we fall
Just one step ahead to the ground
Bound to our oath
Cursed forever more
Till the end of time
