

Chased in Fate

Gloryful

Listen to the sound
Of the battlefields
Men falling like leaves
In autumn's breath
No one stays alone
And iron will unite
Whispering our names
The legend will survive

I feel no fear to die
The pain will fade away
And the moment lasts forever
Strike down from heaven to earth
The end will know our names in here
Chased in fate

Waiting in the dark
With my brothers by my side
This won't be the end
Don't be afraid, we'll just coming home
It's a destiny that calls us
And glory is our guide
We will be heroes, immortal
Till the end of time

Kingdoms fall, but our tales remain
Carried through the night
Prevail the length of time
There is a flame, that burns all through the dark
Let all know that's just the spirit of your heart
