

Bossheaded

Gluecifer

I'm headed - I got a bosscap on
I'm leaded - like Satan's son

Just a negative dimension with a nasty horror twist
You're a sinker with a bullet baby on the bottom of my list

Oh yeah - I'm a sidestreet stalker with a tenpound hammer boot
Hey well come on just a loudmouth talker with a hangup on the g
roove

Choose the highway or the path
Get a taste of bossman wrath
Feel the system of my math

Part of me is animal Bossheaded oh Bossheaded
Just a right-on beast
I'm connected to the power-dial
Like a kung-fu priest

Gotta go gotta do it right
Jet pilot on a power flight
Comin' down with a hellish might tonight

Oh yeah, I'm feelin' fast - so whaddaya know
Gotta make it last - you gotta go
I said you gotta go - you gotta go
