

I Saw The Stones Move

Glucifer

I wanna be out there seein' big rock moving
Get my head groovin', I wanna get high alright
I see the tracks are forming
Stones keep moving, get my head ruined
Wanna be on that ride all night

I did the two ton boogie
And then the bed rock shake
I did the desert froogie
And my head got baked

I wanna be out there seein' big rock moving
Get my head groovin', I wanna get high alright
I see the tracks are forming
Stones keep moving, get my head ruined
Wanna be on that ride all night

I wanna be out there seein' big rock moving
Get my head groovin', I wanna get high alright
I see the tracks are forming
Stones keep moving, get my head ruined
Wanna be on that ride all night
Wanna be on that ride all night
Wanna be on that ride all night

I saw'em moving, moving over the sand
I saw'em moving, in the desert land
I saw'em moving and it was out of hand, yeah
