## **Shotgun Seat**

With the top down And a hitcher And a stream of steady talk I got the beat on And a kerosene bottle And a light on the cigar Light green Light up the kerosene White light Goin right into the night You wear the hair long Got opinions And you think you re very smart I□m just a driver With a buzz on And a light on the cigar Light red And itOs buzzing in my head White light Going right into the night come on and ride it - ride it dig it - digging it bite it - bite it shotgun seat for you An opposition To the system Is gonna leave you with a messy face When iOm gunnin down a straight way and then  ${\rm i} {\tt I} {\tt m}$  slamming on them brakes Light green Light up the kerosene White light Goin right into the night Come on and ride it - ride it dig it - digging it bite it - bite it shotgun seat for you I got a seat for you Oh, I got a seat for you I got a seat for you Come on and ride it - ride it dig it - digging it bite it - bite it shotgun seat for you
