

Take It

Glucifer

Take a little of the reds and the white and the blue
Stir it up in a cup then tell me what you gonna do
Take a little of the piss the angst and the noise
Take a look at the people take a look at the girls and the boys

Out on a rock I am stuck on a shock and I
don't want anyone to mend it
Out on a rock I am stuck on a shock and I'm
like a liar like a thief and a bandit

Can you tell me what it's for what it's good for how it works
Spell it out real clear make it work for the jerks
Can you print it out on paper can you get it here
Can you put it in a circle can you put in a square

Out on a rock I am stuck on a shock and I
don't want anyone to mend it
Out on a rock I am stuck on a shock and I'm
like a liar like a thief and a bandit

Take a little of the tears the fears and the lies
Take a swing at the crowd take a swing the girls and the guys
Don't go with the flow just go with the go
I know how it is you say it aint so.

Out on a rock I am stuck on a shock and I
don't want anyone to mend it
Out on a rock I am stuck on a shock and I'm
like a liar like a thief and a bandit

Out on a rock I am stuck on a shock and I
wanna find somebody to share it
Gonna pack'em up and stay, gonna crack'em up and play
I wanna see it wanna feel it wanna hear it!
