

Charity Case

Gnarls Barkley

Give, give, give it away now
Give, give, give it away now
Give it away now
Give it away now

I-I-I don't know what matters to you at this moment
But that's all that matters to me

How are you? (How are you?)
Knock on wood
Well I'm not doing so good

About your brother, we couldn't tell
Although you're worth it, I'm still not well

And I don't understand, how I'm so understanding
I guess that's all I can be

How are you? (How are you?)
I think I can help
But I can't help myself

Should I be happy, you need my help
I usually just talk to myself

Oh can't you see
Oh can't you see
If I help somebody
Baby there's mercy for me

Ah, charity
(One for you, and you, and you)
(One for you, and you, and you)

Don't want to bother you baby
But needing you, are you needing me like I'm needing you?
Even my shadow leaves me all alone at night
Guess I need to start to take my own advice

(La la la la la la la la la)
(La la la la la la la la la)

Oh can't you see
Oh can't you see
Somebody's a liar
Whoever said freedom was free

Ah, charity

Give, give, give it away now
Give, give, give it away now
Give it away now
Give it away now

Alright
Yeah
[Unintelligible]

Charity
Better give it to somebody
