Charity Case

Gnarls Barkley

Give, give, give it away now Give, give, give it away now Give it away now Give it away now I-I-I don't know what matters to you at this moment But that's all that matters to me How are you? (How are you?) Knock on wood Well I'm not doing so good About your brother, we couldn't tell Although you're worth it, I'm still not well And I don't understand, how I'm so understanding I guess that's all I can be How are you? (How are you?) I think I can help But I can't help myself Should I be happy, you need my help I usually just talk to myself Oh can't you see Oh can't you see If I help somebody Baby there's mercy for me Ah, charity (One for you, and you, and you) (One for you, and you, and you) Don't want to bother you baby But needing you, are you needing me like I'm needing you? Even my shadow leaves me all alone at night Guess I need to start to take my own advice (La la la la la la la la) (La la la la la la la la) Oh can't you see Oh can't you see Somebody's a liar Whoever said freedom was free Ah, charity Give, give, give it away now Give, give, give it away now Give it away now Give it away now Alright Yeah [Unintelligible]

Charity Better give it to somebody
