

## feel better

Gnash

If emotion's a wave, then sad is a tidal  
It's a hell of a ride, but feeling is vital  
'Cause if we don't then we won't know it won't last forever  
If we feel together, then we'll feel better

I don't really understand this life  
And why we're all here  
All I know is, when your hand's in mine  
The questions disappear  
And I'm less obsessed with the reasons and guessin'  
What life had in mind for me all this time  
All the ups and the downs seem worth it  
Feels like maybe we made it on purpose

You make me feel better  
That's all that I know, head to my toes  
You make me feel better  
I don't know what that means, but it's something to me that  
You make me feel worth it and shake off the nervous  
And wake up with purpose, it's true  
You make me feel better  
So, I hope, I make you feel better too

I suppose I could propose that this is how it comes and goes  
And what we know ain't all we know  
And all my no's and all my yes's taught me lessons  
Overthinkin' second guesses  
I don't usually do this, you know I been through it  
Love hasn't been good for my health  
But you ain't no plan B and you understand me  
And I can't keep my hands to myself

You make me feel better  
That's all that I know, head to my toes  
You make me feel better  
I don't know what that means, but it's something to me that  
You make me feel worth it and shake off the nervous  
And wake up with purpose, it's true  
You make me feel better  
So, I hope, I make you feel better too

O-oh o-oh, I hope I make you feel better too  
O-oh o-oh, 'cause I definitely feel better with you

I'm not good at much  
Just singin' songs and lovin' you, but  
Every time we touch  
I know I'm doin' what I'm supposed to do  
I'm not good at much  
Just singin' songs and lovin' you, but  
Every time we touch  
All I wanna be is closer to

You make me feel better  
That's all that I know, head to my toes  
You make me feel better  
I don't know what that means, but it's something to me that

You make me feel worth it and shake off the nervous  
And wake up, you're perfect, it's true  
You make me feel better  
So, I hope, I make you feel better too

O-oh o-oh, I hope I make you feel better too  
O-oh o-oh, I hope I make you feel better too  
O-oh o-oh, I hope I make you feel better too  
O-oh o-oh, 'cause I definitely feel better with you
