

Forget About It

Go:Audio

Stay Awake
We've got all we need
Our hearts skipped a beat, tonight
Everytime that we started to
Somethings always in our way
For now
Forget about it
Forget about it

It's getting late
I'm far away from home
But i''l be mis-placed
A thousand time before
Kid yourself that is never new
How many times can conincidence be true
Forget about it
Forget about it

Waiting for a moment that is quiet
Try to make out what you say
I'll wait
Hearing things just at the wrong time
Shadows moving through the line
For now
Forget about it
Forget about it
