

Fire In The Streets

Go Back to the Zoo

I wanna run
through the fire in the streets
I wanna scream
at the people who lead

but the sun came down on me
oh the sun came down on me

I see the man
preaching hate and deceit
I see the kids
searching something to believe in

but the sun came down on me
oh the sun came down on me

do you really want to blow it up
go let the sun shine
don't let the lights go out on us
go let the sun shine

no nobody heard the alarm bells
that were ringing
and so they'll never understand
about the fire in the streets

I wish I could fly
flee these lands of hypocrisy
