

I don't see neon signs
The way we gotta go
I got, no longing to break free
But my lady says I got to make it new

New shoes, houses
Cheap booze, trousers
You know, this song
But hey, come on

Now get ready 11
Dance

You know what you gotta do!
It's all been done for you
You know what you gotta say!
It's all gonna be okay

Haircuts, nosejobs
Foucault, tank top
You plea, all new
But old keeps popping up

Now get ready 11

You know what you gotta do!
It's all been done for you
You know what you gotta say!
It's all gonna be okay

And I see you going wild
And we both know what it is

You know what you gotta do!
It's all been done for you
You know what you gotta say!
It's all gonna be okay
