

Saturday

Go Betty Go

Saturday,
You danced the night away away away
Getting further every day

New Years came
And you forgot the date, the date the date
Didn't even know your name

Change is on the way
If you wanna live it out
Change is on the way
If you wanna figure out

Yesterday
You sold your car for hits, for hits, for hits
Now you have no way home

Your mother knows
It's the life you choose, you choose, you choose
And it tears her apart

Change is on the way
If you wanna live it out
Change is on the way
If you wanna figure out

Turn around and run
'Cause your world is going
In all the wrong directions
