Saturday

Go Betty Go

Saturday, You danced the night away away away Getting further every day

New Years came And you forgot the date, the date the date Didn't even know your name

Change is on the way If you wanna live it out Change is on the way If you wanna figure out

Yesterday You sold your car for hits, for hits, for hits Now you have no way home

Your mother knows It's the life you choose, you choose, you choose And it tears her apart

Change is on the way If you wanna live it out Change is on the way If you wanna figure out

Turn around and run 'Cause your world is going In all the wrong directions
