

# Hear Me Out

Go Radio

Where did you go  
How will I know  
If you hear me out  
I need this now

Watching as the leaves fall down  
The colors where we use to run and play  
Another year's flown by I fear  
It seems to be too soon the seasons change

The pictures on the wall my dear  
The Holy Ghost himself can't make appear  
But I believe that you're with me  
And you complete my heartbeat still...

Where did you go  
How will I know (hear me out)  
If you hear me out  
I need this now  
I lost my faith  
And I miss my soul (hear me out)  
So hear me out  
I need you now

And I had heart but it left with your breath  
And the notes that you sang  
I'll remember them always  
Just the thought that you're here in my chest  
Keeps the thoughts in my head  
From the dark that is these days  
These days

Where did you go  
How will I know (hear me out)  
If you hear me out  
I need this now  
I lost my faith  
And I miss my soul (hear me out)  
So hear me out  
I need you now

The pictures on the wall my dear  
The Holy Ghost himself can't make appear...
