

Things I Don't See

Go Radio

You find the color in things I don't see
And you found a way to make me believe that I...
I don't have to walk this road alone
And patience I can lack to live and learn is what I need
A stubborn man is blinded by pride she said to me
I might just be on to something now

And maybe your mind's made up, we'll right the wrongs today
And maybe you'll write me off and walk your fears away

And if you wait a little a longer
I'll meet you there come June
At the corner of Girard
And it's true, it gets a little colder when you're not here
'Cause I am gonna miss you baby tonight
I'll miss you baby tonight

'Cause I took the time to say what I mean
While you lost the sight to see what I see in signs
I've always assumed were sent to me
I thought with every second was a promise I could keep
That every single second was about destiny that time
Maybe time would plant a simple seed

But I know your mind's made up with nothing left to say
So just get the courage up to watch me walk away

And if you wait a little a longer
I'll meet you there come June
At the corner of Girard
And it's true, it gets a little colder when you're not here
'Cause I am gonna miss you baby tonight
I'll miss you baby tonight

'Cause I took the time to say what I mean
While you lost the sight to see what I see in signs

And if you wait a little a longer
I'll meet you there come June
At the corner of Girard
And it's true, it gets a little colder when you're not here
'Cause I am gonna miss you baby tonight
I'll miss you baby tonight
