Bigger Than An Ocean

Go Sailor

If you moved a million miles
Away
I'd still visit you every day

Flying across the sea is not the farthest I would go
I'd go around the world just to see you 'cause I know

My love is bigger than an ocean
My heart swims in a sea of devotion
My love is bigger than an ocean
My heart swims in a sea of devotion for you

If the water takes my boat
Away
I'd still find you in less than day

Flying across the sea is not the farthest I would go
I'd go around the world just to see you 'cause I know

My love is bigger than an ocean
My heart swims in a sea of devotion
My love is bigger than an ocean
My heart swims in a sea of devotion for you
For you, for you, for you
For you, for you, for you
For you
