

# Break Of Dawn

Goapele

I've had some starless nights left in darkness  
I've walked down roads with no direction  
Somehow I find my way within  
The sun will rise, the day will begin

And as sure as the dawn  
The world keeps turning on  
First you're here then you're gone  
Time waits for no one  
I gotta move on

Until the break of dawn  
Keep moving until you reach the sun  
I gotta move on  
Can't stop 'til the break of dawn  
I'll keep on moving on  
Until I reach the sun  
Until I reach the sun

I've lost some love but I'm still standing  
With that came growth and understanding  
I've walked for miles I'll keep steadfast  
I'll leave my footprints in the sand

And as sure as the dawn  
The world keeps turning on  
First we're here then we're gone  
Time waits for no one  
I gotta move on

Until the break of dawn  
Keep moving until you reach the sun  
I gotta move on  
Can't stop 'til the break of dawn  
I'll keep on moving on  
Until I reach the sun  
Until I reach the sun

When times get rough and things get bad  
Don't let go don't lose your head  
You may not see tomorrow  
Play your hand take a chance  
Live your life with no regret  
That's what it's all about

And as sure as the dawn  
The world keeps turning on  
First you're here then you're gone  
Time waits for no one  
I gotta move on

Until the break of dawn  
Keep moving until you reach the sun  
Until you reach the sun  
Can't stop 'til the break of dawn  
I'll keep on moving on  
Until I reach the sun

I gotta move on

Until the break of dawn

Keep moving until you reach the sun

Until you reach the sun (I gotta move on)

Can't stop 'til the break of dawn

I'll keep on moving on

Until I reach the sun

Until I reach the sun
