

# Money

Goapele

Credit cards don't mean a thing  
Canary diamonds on a wedding ring  
I'll just say it, cause I mean it  
Baby I love you  
Be there for me in my time of need  
Find other ways to fill my fantasy  
And just say it, when you mean it  
Baby I love you

It might seem like money  
Money's got it all  
But money still could fall babe  
It ain't fail proof  
Like our love is

No tennis bracelet shining on my wrist  
There's more important things on top of my list  
So just squeeze me, and believe me  
Baby I love you  
If I could take back every word I said  
If I could rewind our story  
Make it easy instead  
I wouldn't change it  
Baby baby baby I love you

It might seem like money  
Money's got it all babe  
But money still could fall babe  
It ain't fail proof  
Like our love is

Oh baby, come away with me  
It will be a great escape  
Escape material things  
Our love will last a lifetime babe  
Our love and the air we breathe  
Are the last things for free

It might seem like money  
Money's got it all babe  
But money still could fall babe  
It ain't fail proof  
Like our love is  
(2x)
