

Parasitic Scriptures Of The Sacred Word

Goatwhore

From the great land of holocaust
Great words expose the structures of an empty core
Hollowed thoughts of this vision
This existence turned inside out
Impassive vessel of confined hatred

Deviated catalyst that will reconstruct
The embedded image of the damned
After all is gone

Behold the secret to annihilate
Wormholes fading into regions of death
Unexplained disease that will flood the misfortune of might
Rebirth in this apex of collapse
Defiled idols fall in the ages of decay
Expanding force that consumes
Destroying all positive intent

Force of this tragic stride
Hell's unforgiving arms
Vortex of merciless decay
Untouched by any theory
Suicides form the heavens
Sink into the eye of terror
A mound of bodies lie in wrath
Reaching the hereafter

Reflection of self denied
The demon that eats the soul
Sunken eyes of fear
A path of forgotten pain
The lifeblood of treason
Tasting this bitter steel
Sacrament of disaster
Wounds that never heal

This venom of revenge
The Judas of red skies
Untouched by divine means
As this earth slowly dies
Machine of destruction
Satan's unholy ways
Burning fire of inquisition
A demise of this grace

An art of sacrosanct lust
This rite of virgin's blood
Disguised by confusion
Summoning of the demon legion
The kindred of this ruin
Awaiting the fall of this order
Diminish into madness of complete death
This sufficient hunger
