

# Poisonous Existence in Reawakening

Goatwhore

Waiting in this cavity of despair  
Depraved thought overwhelms this fear  
Sunken reason forms within this curse  
A life of darkness will offer all remorse

Sickness inside  
Punctures the core of the wind  
Futile, Deed  
Apathy has revoked all the senses

Staring deeper into this deed of violence  
Holding hands with the end of all desire  
Reoccurring vision spawns fatal silence  
Penetrate this abyss of eternal fire

Writhe inside  
Rebirth of pain  
Seed of death  
Severing the soul from mind

Deviant to this new occurrence of emotionless hunger  
Defilement drips with the blood of this reverence  
Living out this sanction to punish the sinless through sin  
Clarify in the heartless art of destructive paradise

Deeply cut marks across faces of unforgiven venial re-creations  
Reborn through the torment of this prophecy

Distant, Apathetic  
Sanity is weakened in repeated penance  
Vain, Murderous  
Dissect into the well of this existence

This act of transgression consumed into this blood soaked gaze  
Creating this unsound prison of the end times

Stricken with this faithless embrace  
Impotent to this final stage of return  
Glorify the nature of elite carnage  
Inflicted with this curse of mental chaos

Legacy of the insane forged in a god's delusion  
Spoils of this damnation that feed a sadistic mind  
Enticed into deception of a false dream of desire  
Nurturing of evil turned bleak in the outcome of vile achievement
