

# To Mourn And Forever Wander Through Forgotten Doorways

Goatwhore

Screaming chasm into these emptied voids  
Senses aroused by the undoing of creation  
Weapons of these vengeful arrangements  
To coincide with this mass fall of imperium

Immense columns holding up the heavens  
Collapsing from the might of the choirs below  
Burrowing hallucination from the infested carrion  
In this apocalypse for the millennium of the sun

Visualize the final stance of promise as blood pours out of the  
stars  
A decay that serves as the portal into the gates of the great a  
ncients  
Tides of this distinct neglect awaken those who left behind the  
pride of liberation  
Eating their own pulsing hearts in punishment
