

i want to know thw place where you come from
i like to see your face when i wake up i offer me
just for yourself wrapped up for you and no one else
and no one else could be appreciative be as appreciative of you
r charm
when you walk you take you time take the tiniest steps
when i'm at your side if you feel you're left behind i'll slow
down
to your pace and we'll be like a tree and we'll grow on
and if the world should end with fire
and bombs i'd like to be there holding hands with you
i'll view the end of the lands and no on else could steal a pie
ce
that big of my heart i want to be with you and we will be toget
her
i want to be with you and we will live forever
