

Censorshit.
What does it really mean?
To me I think it absolutely stinks,
there's no question about it.
I wonder if they know?
That they are so fucked and they just deny it.
Cuz they really suck and they don't know their thumb(head's) stuck
in their ass and they keep covering it up, all the time.
Everyone has heard the bullshit lines.
You hear all the rest of the fucking lies and they keep on covering it up,
all the time. But wait, what's this?
What exactly is happening to us?
Our world? Don't you think its sort of fucked?
