Dead End Love

Gob

1. While you skip the night, I stay up till 5
   We may meet again when semester ends
   So with all my might, I sit down to write
   Here lies precious pen failure to the end

R1: And while you were gone I let
    my sores out bleeding o-pen
    I was cold I was sold I met
    a road sign leading nowhere
    Doublecrossed and erased I
    let a monster run me o-ver
    I was lost don't know where there
    was a road-sign leading nowhere

2. When I got hypnotized recounted only lies
   Only fooled myself kept unsafe in hell
   I can't blame the scarecrows I get sad for nothing
   Introduce me to something that can move

R2: And while you were gone I let
    my sores out bleeding o-pen
    I was cold I was sold I met
    a road sign leading nowhere
    Doublecrossed and erased I
    let a monster run me o-ver
    I was lost don't know where there
    was a road-sign leading no-where

Come on!!!

R1: And while you were gone I let...

    road-sign leading no-where
    F#   C#   B G#m B(hold)
    road-sign leading no-where
