

Everybody's Getting Hooked Up

Gob

Lately I've had a heavy
thing on my mind I don't
think that I can carry it
around for very long I
guess I could try and treat
it like a test well I met her
on a saturday night she
said you want to fuck you
know it's alright I give it
up until I get down the sun
takes up and it's raining
down four leaf clover is
nowhere to be found fall
until you've hit the ground
made a mess of me tonight
yeah everybody's getting
hooked up made a mess of
me now and how.
