

I Hear You Calling

Gob

1. I've seen you now
About the fourth time
Baby, but you know that I got nothing to say
It's so charming to look on your face
But your eyes inviting something
I just can't do now
I've been around about your hood
I'm looking for you
Just to shine some light on my day
Feels like ages since i've been out your way
I've been caught up
With a handful of new sensations

R: I hear you calling
Calling for me out in the night
But it's all bad
And I know that

2. I've seen you now

It's so charming to look on your face

I'm looking for you
Just to shine some light on my day
Feels like ages since i've been out your way
