

Together

Gob

Hard times and getting harder still but together we can make
it through these days hold on and take hold of this hand
we turn to each other to find strength there's nothing that
we won't beat together there's nothing that can stop us.
Help me, help me face my fear because I don't want to have to w
alk alone
and I make this promise to you to stand by you support you
to never let you down.
