

Gaia (The Vultures)

God Forbid

What is it you said? Say it again you piece of shit
I spilled your blood, and the earth soaked it up
The blood in my veins fueled with the fire of past generations
I spilled your blood, and the earth soaked it up
You pulled the finger of the only one that left me in chains
I spilled your blood, and the earth soked it up
Now I'll never walk away. Never walked away
I can't try to hear your words
I won't try to be a vulture
I thought I could turn away
Hide to try to live in this would
Gaia. Gaia. Gaia. Gaia
What is it you said? Say it again you piece of shit
I spilled your blood, and the earth soaked it up
The blood in my veins fueled with the fire of past generations
I spilled your blood, and the earth soked it up
You pulled the finger of the only one that left me in chains
I spilled your blood, and the earth soaked it up
Now I'll never walk away. Never walked a way
I can't try to hear your words
I won't try to be a vulture
I thought I could turn away
Hide to try to live in this world
