

Can't Come Down

God Lives Underwater

Starve myself from poison love memories
With traces of what knocked me out
Knocked me out

-0

Act as if I'm just alright, but I've already lost my sight
And you're treading ground without a sound
Something for nothing, I know that I haven't given
You know that I haven't risen above

Please believe me, round and round, hear the sound
Reality crashing into me, I hear the sound
But I can't come down

Fight for love or love to fight never knew my wrong
From right, patiently, I wait for the day
When it hits me hardest yet and it's real not
Second best my hearts for you
You know it's true
