

Corpses (a Zombie Love Song)

God Module

There are some things that we can't explain
Why we didn't die when we died that day
But one thing I know that's true
Is that forever I'll be with you

Holding your hand while our bodies decay
I'll be by your side as we waste away
Eating brains by the light of the moon
Forever I'll be with you

"We are each other - We are each other
You will always be mine - Eternally"
