

## Re.start

## God Module

Restart insanity  
Sailing on a frozen sea of time  
Never stops  
These clocks are broken  
They're smashed into  
A place devoid of tragedy  
Symptoms show in you and me  
Losing time we redefine what's real  
Then start again

I've seen the future there's no past  
And what we wish for will not last  
Forever's far too long to feel  
As if our future will not last  
And what we wish for is in the past  
Our actions redefine what's real  
Then start again

I've seen the future there's no past  
I've seen the future
