

Your True Face

God Module

Follow me through the cemetery gates tonight
No moon in the sky to make the world look right
What separates us from them
You from me
And you'll never know the truth
In under our skin
Where to begin?
Now that all control is lost
It's insanity
That's all gone away
Leaving us alone to play

Dead inside of our heads
Wishing we were someone
Wishing we were no one
Dead inside of our heads
Wishing we were someone
Wishing we were no one

"What do you know about it?
It's where the monsters go.
It takes away the pain.
Hey, wait a minute...
What do you know about it?
They forgive you there."

Show me your true face here tonight
And we can pretend that everything is alright
We're not the same
There's no way for them to know about the pain
In under our skin
Where to begin?
Now that all control is lost
It's insanity
That's all gone away
Leaving us alone to play

Dead inside of our heads
Wishing we were someone
Wishing we were no one
Dead inside of our heads
Wishing we were someone
Wishing we were no one

Dead inside of our heads
Dead inside of our heads
Dead inside of our heads

What do you know about it?
It's where the monsters go.
It takes away the pain.
Hey, wait a minute...
What do you know about it?
They forgive you there.

Follow me through the cemetery gates tonight
Show me your true face here tonight

We're not the same
There's no way for them to know about the pain
