

Power Behind The Throne

Godley & Creme

All hands to the rescue. All hands on deck. Women and children first. Women
And children first.
Cold feet in the bedroom. Cold moor in the bed. I've seen the starship
Rollin' in. I wanna talk instead. About the way that you treat me and the
Round in the wheel. How you made a reservation for you're changing the way.
So how can I love you, when you make me feel, like a hmm and a weasel at
The end of a day. End of conversation.
On this occasion. I have no reservation. It's saying, she's the power
Behind the throne. She's the power behind the throne. She's the power
Behind the throne. She's the power behind the throne. She's the power...
Behind the throne.
All hands to the rescue. All hands on deck. I'm in need if assistance. I'm
Going down with the wreck. I can't sleep with the captain. Can't sleep with
The crew. I always mix with the windcraft. That I used to do.

She should be home, yet she's out of the town. So I'm stuck in the
Appartment, with the kids all day. And if I was an animal they'd brought me
Down. And I just can't go on living this way. End of conversation.
On this occasion. I have no reservation. It's saying, she's the power
Behind the throne. She's the power behind the throne. She's the power
Behind the throne. She's the power behind the throne. She's the power...
Behind the throne.
She's the power behind the throne. She's the power behind the throne. She's
The power behind the throne. She's the power... behind the throne.
A very bousy woman. A real bousy woman. A bousy woman.
