

Sweet Memory

Godley & Creme

There's a memory That's haunting me And it's begging to be said
I know it's real I can almost feel it But it's locked inside my head
Sweet memory, yeah Sweet memory, yeah Sweet memory There
's a pot of gold That's waiting for me Somewhere in the past
There's a shadow there With eyes that sparkle But it's disappearing fast
Sweet memory, yeah Sweet memory, yeah Sweet memory Oh,
I remember The mind may wander But it never forgets I've seen too many silhouettes
To know Or even care Oh, I miss you The mind may wander But it never forgets
She smoked too many cigarettes To know And I remember This memory Is killing me
But I can't fail the test 'Cos if I'm good in this life She'll be waiting in the next
