

Good Day to Die

Godsmack

Who really know what rights all the wrongs anyway
Who really cares what people do or say
No matter where this life takes me
Ill never let it compromise
To much luck to bet it on do or die

Cuz I've seen everything that I could see
And now I can say goodbye today
With all I know
Its time I said goodbye
Today is a good day to die

Lived by the rules you that you gave me and fell apart
All the wrong turns down a dead end street so far
I stretched my wings and breath in different day
Alone and broken is the price I pay
But that's ok

I've seen everything that I could see
And now I can say goodbye today
With all I know
Its time I said goodbye
Today is a good day to die

Never thought life
Taking all I can take
It's time to say goodbye
It's a good day to die

Cuz I've seen everything that I could see
And now I can say goodbye today
With all I know
Its time I said goodbye
Today is a good day to die

Cuz I've seen everything
And I know all I know
It's time I said goodbye today
With all I know, it's time I said goodbye
Today is a good day to die
