

Oh mama what have I gone and done?  
With all these years that I've been gone  
My life changed me way too fast  
I don't know if I could last

Help me find my way, and mama save me  
Help me find today, mama please come and save me, oh

Oh mama if you could've only seen  
Everything I've done and where I've been  
If only one thing I would ask  
Why did you let me grow up so goddamn fast?

Help me find my way, and mama save me  
Help me find today, mama please come and save me, oh

There's nothing more that you can do  
It's gone beyond what you can't help me through  
An emptiness has covered me  
Oh mama come and save me

Help me find my way, and mama save me  
Help me find today, mama please come and save me, oh  
Help me find my way, and mama save me  
Help me find today, mama please come and save me, oh

There's nothing more that you can do  
It's gone beyond what you can't help me through  
An emptiness has covered me  
Oh mama come and save me  
Oh mama come and save  
Oh save me... no!  
Oh please mama save...
