

## Shine Down

Godsmack

So tired sleeping through the day  
Bloodshot eyes and sweat from my body  
And I picked my head up yesterday  
Found the reason of hope left inside of me

But I still believe in immortal love  
And I know there's someone above

Shine down, don't take it away from me, no  
And I know you know how, yeah  
Shine down, just give me a chance to feel it  
It's taken forever to get me off the ground

A dead silence overwhelming me  
Day and night takes it's toll on my sanity  
And I know I've been away too long  
All these years I've been hiding  
I'm feeling I'm coming strong

But I still believe in immortal love  
And I know there's someone that's up above  
Show me a path to find my way  
And give me a reason pray

Shine down, don't take it away from me, no  
And I know you know how, yeah  
Shine down, just give me a chance to feel it  
It's taken forever to get me off the ground

Shine down, don't take it away from me, no  
And I know you know how, yeah  
And shine down, just give me a chance to feel it  
It's taken forever to get me off the ground  
Shine down  
Shine down  
Oh, shine down  
Oh baby, yeah, yeah, yeah  
Shine down  
Oh, shine down  
Oh, shine down  
Oh baby shine down
