Find a way
A way to be
You're looking down again
Just let it be
And I'd only do for you what you'd do for me
And I only would do for you what you'd do for me

Wastin' time like it was free
Will you ever find where you'll be
And I'd only do for you what you'd do for me
And I only would do for you what you'd do for me
And I only would do for you what you'd do for me yeeeeeah
And I only would do for you what you'd do for me

Ohhhh... don't look back just to lean on me
Ohhhh... it's taken the life out of me
It's not like you'd know
You've never been close enough
Closer than you've been to me
It's not what you say
It's just in the way
You push me awaaaay

And I only would do for you what you'd do for me yeeeeeeah
And I only would do for you what you'd do for me yeeeeeeah
And I only would do for you what you'd do for me
And I only would do for you what you'd do for me
