## **Dub the Frequencies of Love**

## **Gogol Bordello**

Give me a vision when I got none
And the thunderbolts in each hand of my own
For I'm comin' back to level
Everythin' they taught us wrong
Onto transmigration

With a crave for panacea Our world is crawlin' on all fours In a search of a new prayer Gods are throwin' thunderbolts

So dub it like tovarisch would Dub it like a best friend would Dub it like a brother would Onto transmigration

... how to keep goin'
Of walkin' trails of ultimate
From the streets to the sub-conscience
From sub-conscience to the God

So dub it like tovarisch would Dub it like a best friend would Dub it like a brother would Onto transmigration

Frequencies of love
Gather 'round, oh come on
Frequencies of love
Overcome, overthrow

Master tell me how come everythin' they taught us Turn out to be so goddamn wrong In the meantime music from the tiny island Takes over the world

So dub it like tovarisch could Say it like a brother would Brother hold me like a mother would Onto transmigration

Frequencies of love
Gather 'round, oh come on
Frequencies of love
Overcome, overthrow

Give me a vision when I got none
And the thunderbolts in each hand of my own
For I'm comin' back to level
Everythin' they taught us wrong

Dub it like tovarisch would And say it like a brother would Dub it like tovarisch would Onto transmigration

Frequencies of love

Gather 'round, oh come on Frequencies of love Overcome, overthrow

Onto transmigration
